MODULO

In order to achieve material consistency and visual appeal, Modulo flirts with the style of perforated bricks. Its matt, finely granular surface absorbs light to enhance the purity of the collection's five colours: classic brick, coal, powder grey, chalk white and an intense moss green.

Modulo is available in two surface structures, one smooth (Modulo Base) and one ribbed (Modulo Inciso), a formal tribute to the brickwork it is inspired by.

An ancestry further emphasized by the small Modulo Tondi decoration gloss-glaze buttons that imitate the holes in perforated bricks.

Per consistenza materica e per suggestioni visive Modulo ammicca al mattone forato. La superficie, opaca e finemente granulosa, assorbe la luce e restituisce in purezza i cinque colori della collezione: il classico color mattone, un carbone, un grigio polvere, un bianco gesso e un intenso verde muschio.

Modulo è disponibile in due strutture superficiali, una planare (Modulo Base) e una rigata (Modulo Inciso), formale omaggio al laterizio di ispirazione. Un'ascendenza palesata anche dai bottoni di smalto lucido del decoro Modulo Tondi, che mimano i fori del mattone alleggerito.
