

# BLENDED MOSAICS

Some designs call for a clean, simple monochromatic look. The beautiful neutral color palette combined with the honed surface of all Chapter 11 – Align elements adds a touch of luxury to any installation. The limestone color “Pale” features a very clean, bright, and consistent color with minimal visible veins. When a bit more warmth is desired, use the “Shadow” color which features slightly darker tones with moderate shade variation and a touch of visible veining. The “Suede” marble has significant white veining which imparts a beautiful soft feel to the grey toned stone.

Please Note:  
 All product shots are artistic interpretations of actual product. Due to the nature of the printing process, we recommend obtaining physical samples of product for actual color representation.

Chapter 11 Align reflects the shade variations associated with natural stone. As with all natural stone tiles, we strongly recommend laying out and blending the tiles prior to installation. This step will ensure a proper color blend in order to achieve a classic look for your installation.

Jeffrey Court highly recommends sealing all natural stone tiles with a high quality sealer prior to grouting to ensure an easy cleaning and as part of a maintenance regimen. Consult your sealer manufacturer for reapplication recommendations as part of an ongoing maintenance routine.
