Whether it's a stunning showpiece making a bold statement, or a subtle undertone of sophistication and style, Artaic credits it's work to the collaborative spirit within the architecture and design community.

The Artaic design team digitally renders the imagery for each mosaic, then transforms the concept into its final form - a mosaic masterpiece. While the creative vision can stem from any inspiration whatsoever, we also provide remarkable design collections to ignite ideas.

Our proprietary modern technology has driven this innovative process. Artaic's state-of-the-art facility is headquartered at The Boston Design Center, where the hub of innovation meets style. THE URBN COLLECTION

AFH artist, Lexi Zotov, uses Artaic's Tylist™ design software to transform her original artwork into a mosaic mural for the URBN Collection.

High contrast abstract patterns make up URBN - a bold mosaic collection that celebrates Boston's urban youth. Artaic, in collaboration with local non-profit **Artists For Humanity (AFH)**, uses design technology to transform teen artists' original artwork into mosaic murals.

AFH receives a royalty from any URBN design that is produced. The purchase of your mosaic will directly benefit teen artists!

Since its founding in 1991, **Artists for Humanity (AFH)** has used art and design to bridge economic, racial, and social divides by providing creative training, mentorship, and paid employment opportunities to underserved urban youth. **AFH** grew from an unconventional idea that young people can provide contemporary creative services to the business community.

AFH employs 250+ Boston teens annually.
