

# Wizard Glazes

2019 Selections

# How to Use This Swatch Book

This swatch book is designed to communicate the unique character of each glaze. To do this we have collected a representative sample and given each glaze an overall variation rating.

While we have gone to great lengths to assure the accuracy of the colors in these pages, no screen can truly capture the appearance and complexity of a glazed surface. This information is not a substitute for physical samples. After you have made your glaze selection, please review physical samples.

It is also important to understand that glazes will vary from tile to tile, including tiles used as samples, and that no job can be made to match a single tile. Variation is intrinsic to the beauty and warmth of handmade tile. Expect tile to vary slightly in size, shape, texture and color.

## Environmental Lighting Conditions

The appearance of subtle glaze colors is greatly affected by the color of light at the installation site. The color of light in a room will vary as the amount of daylight mixes with the light provided by fixtures at different times of day

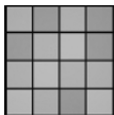

It is important to view tile samples on site at various times of day under different lighting conditions.

## Color Variation Levels Defined

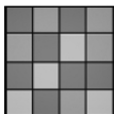

The variation level is the maximum amount of variation a glaze is capable of, but is not a guarantee that level of variation will occur on an individual project. The variation of your project may be less than the level stated, but will not be greater.

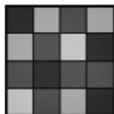

Wizard 100 Glaze Library Boards

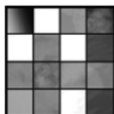

**Minimal Variation (v1):** This glaze has subtle variation in tone and texture. Variation is inherent to the handmade process and is intentional.

**Moderate Variation (v2):** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

**High Variation (v3):** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

**Intentional Variation (v4):** This glaze is created by multiple layers of different color glazes applied or glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

## Agate RC-812-A (Matte)

This glaze has been treated with No stain to enhance its appearance.

MODERATE VARIATION: This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Andaman Sea, RC-2566-E Clear Stain (T2)

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Arctic RC-2262-F (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Black Magic RC-579-A Clear Stain T2

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Bone RC-499 (Matte)

This glaze has been treated with No stain to enhance its appearance.

**MINIMAL VARIATION:** This glaze has subtle variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Bronze C/02 Metallic

This glaze has been treated with No stain to enhance its appearance.

**HIGH VARIATION:** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Buff RC-521-I (Gloss Crackle)

This glaze has been treated with Black stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

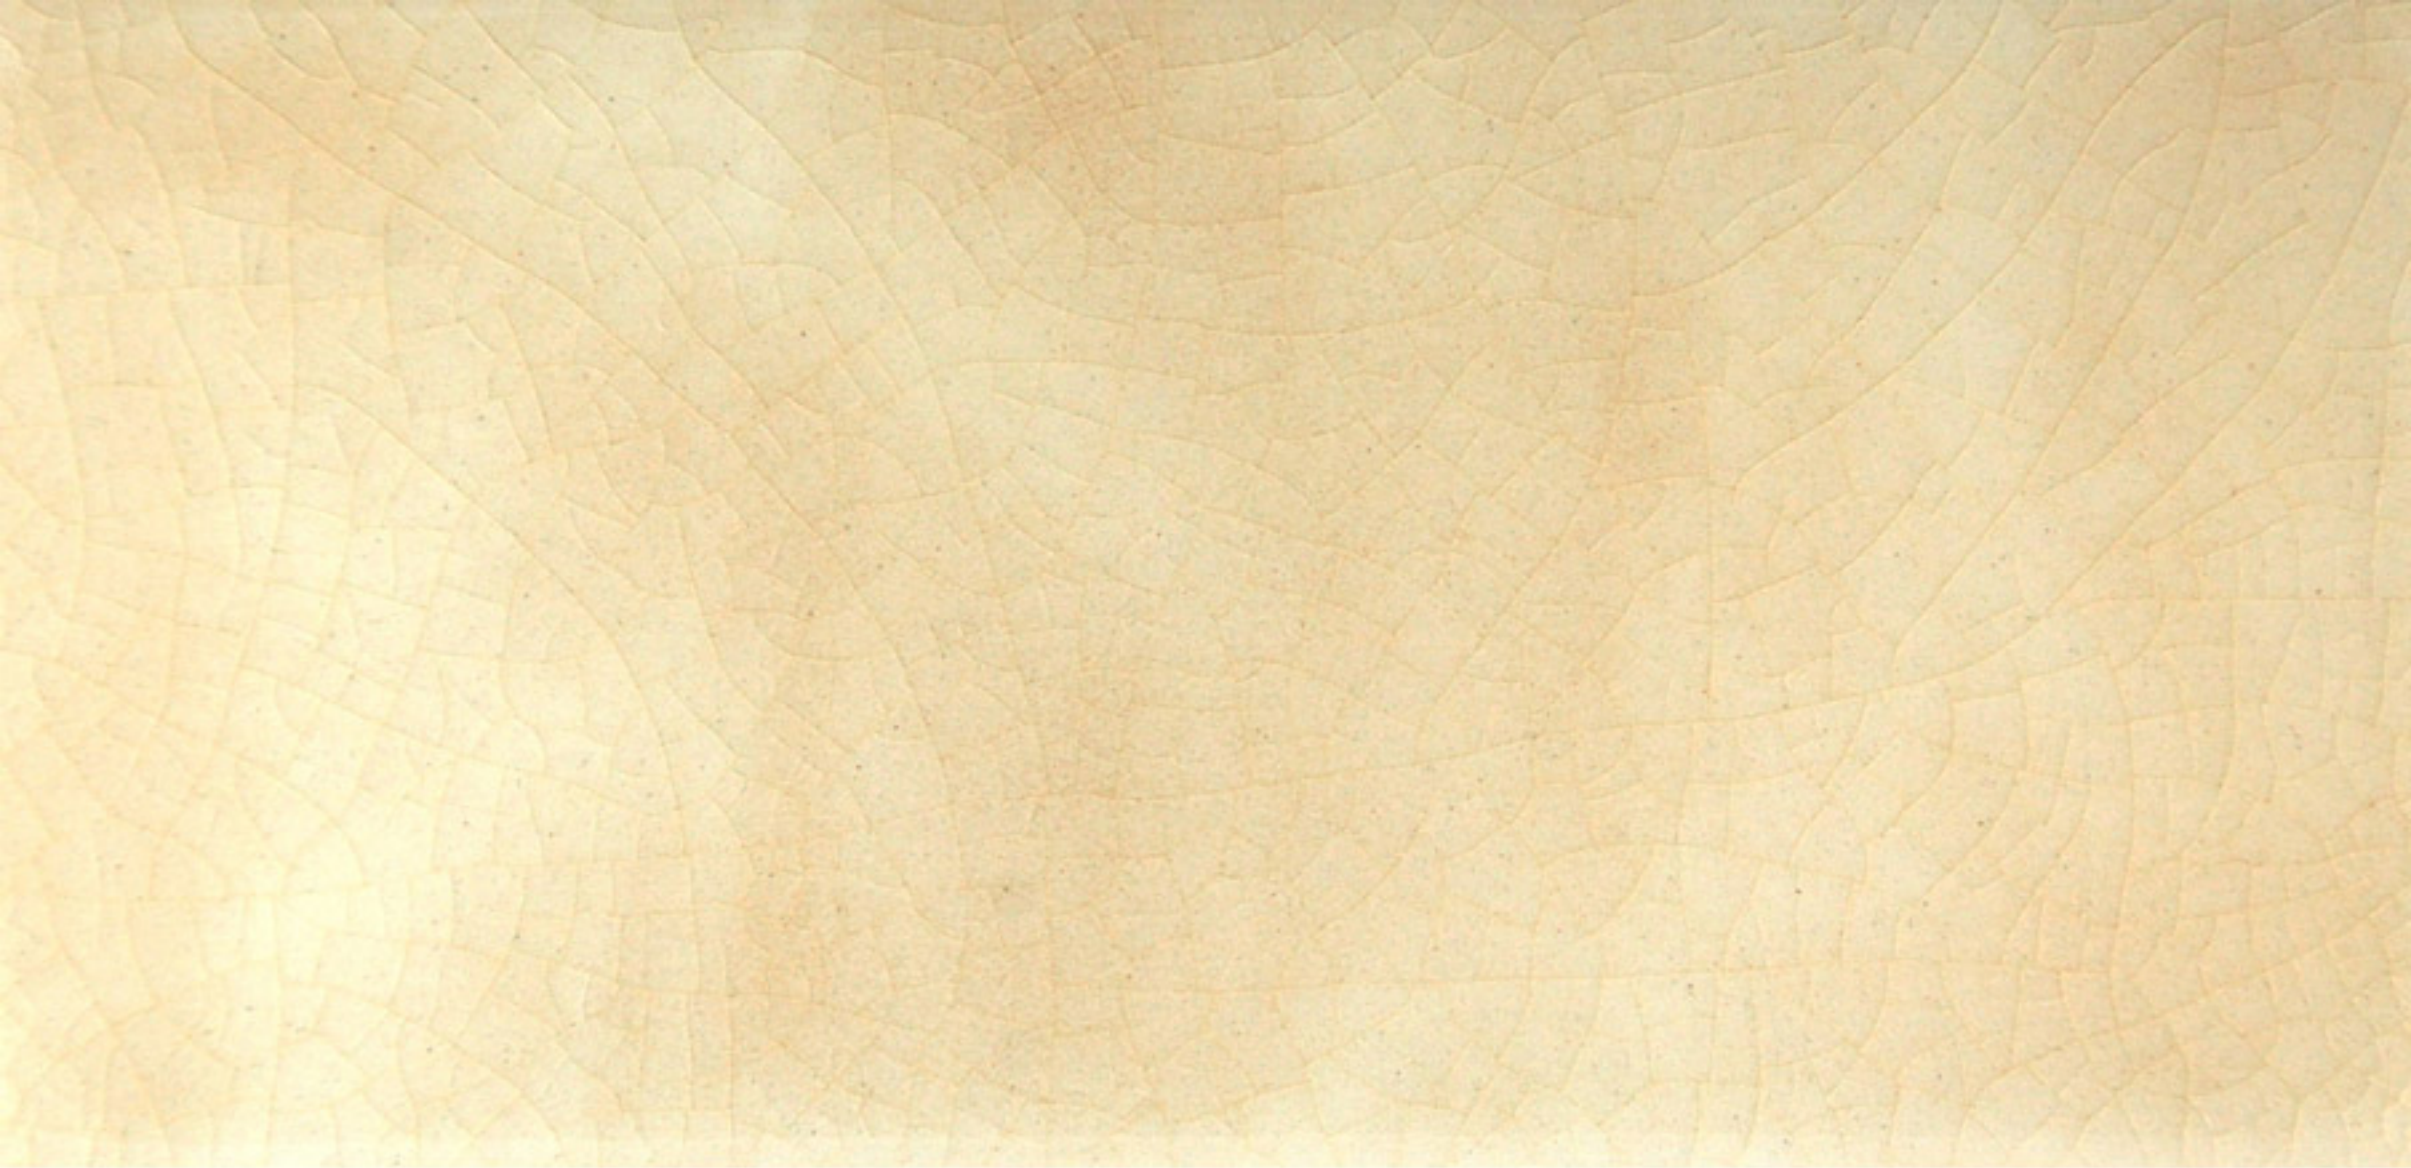

## Camellia RC-3849-C (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Cashmere LG-102 (Wash)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

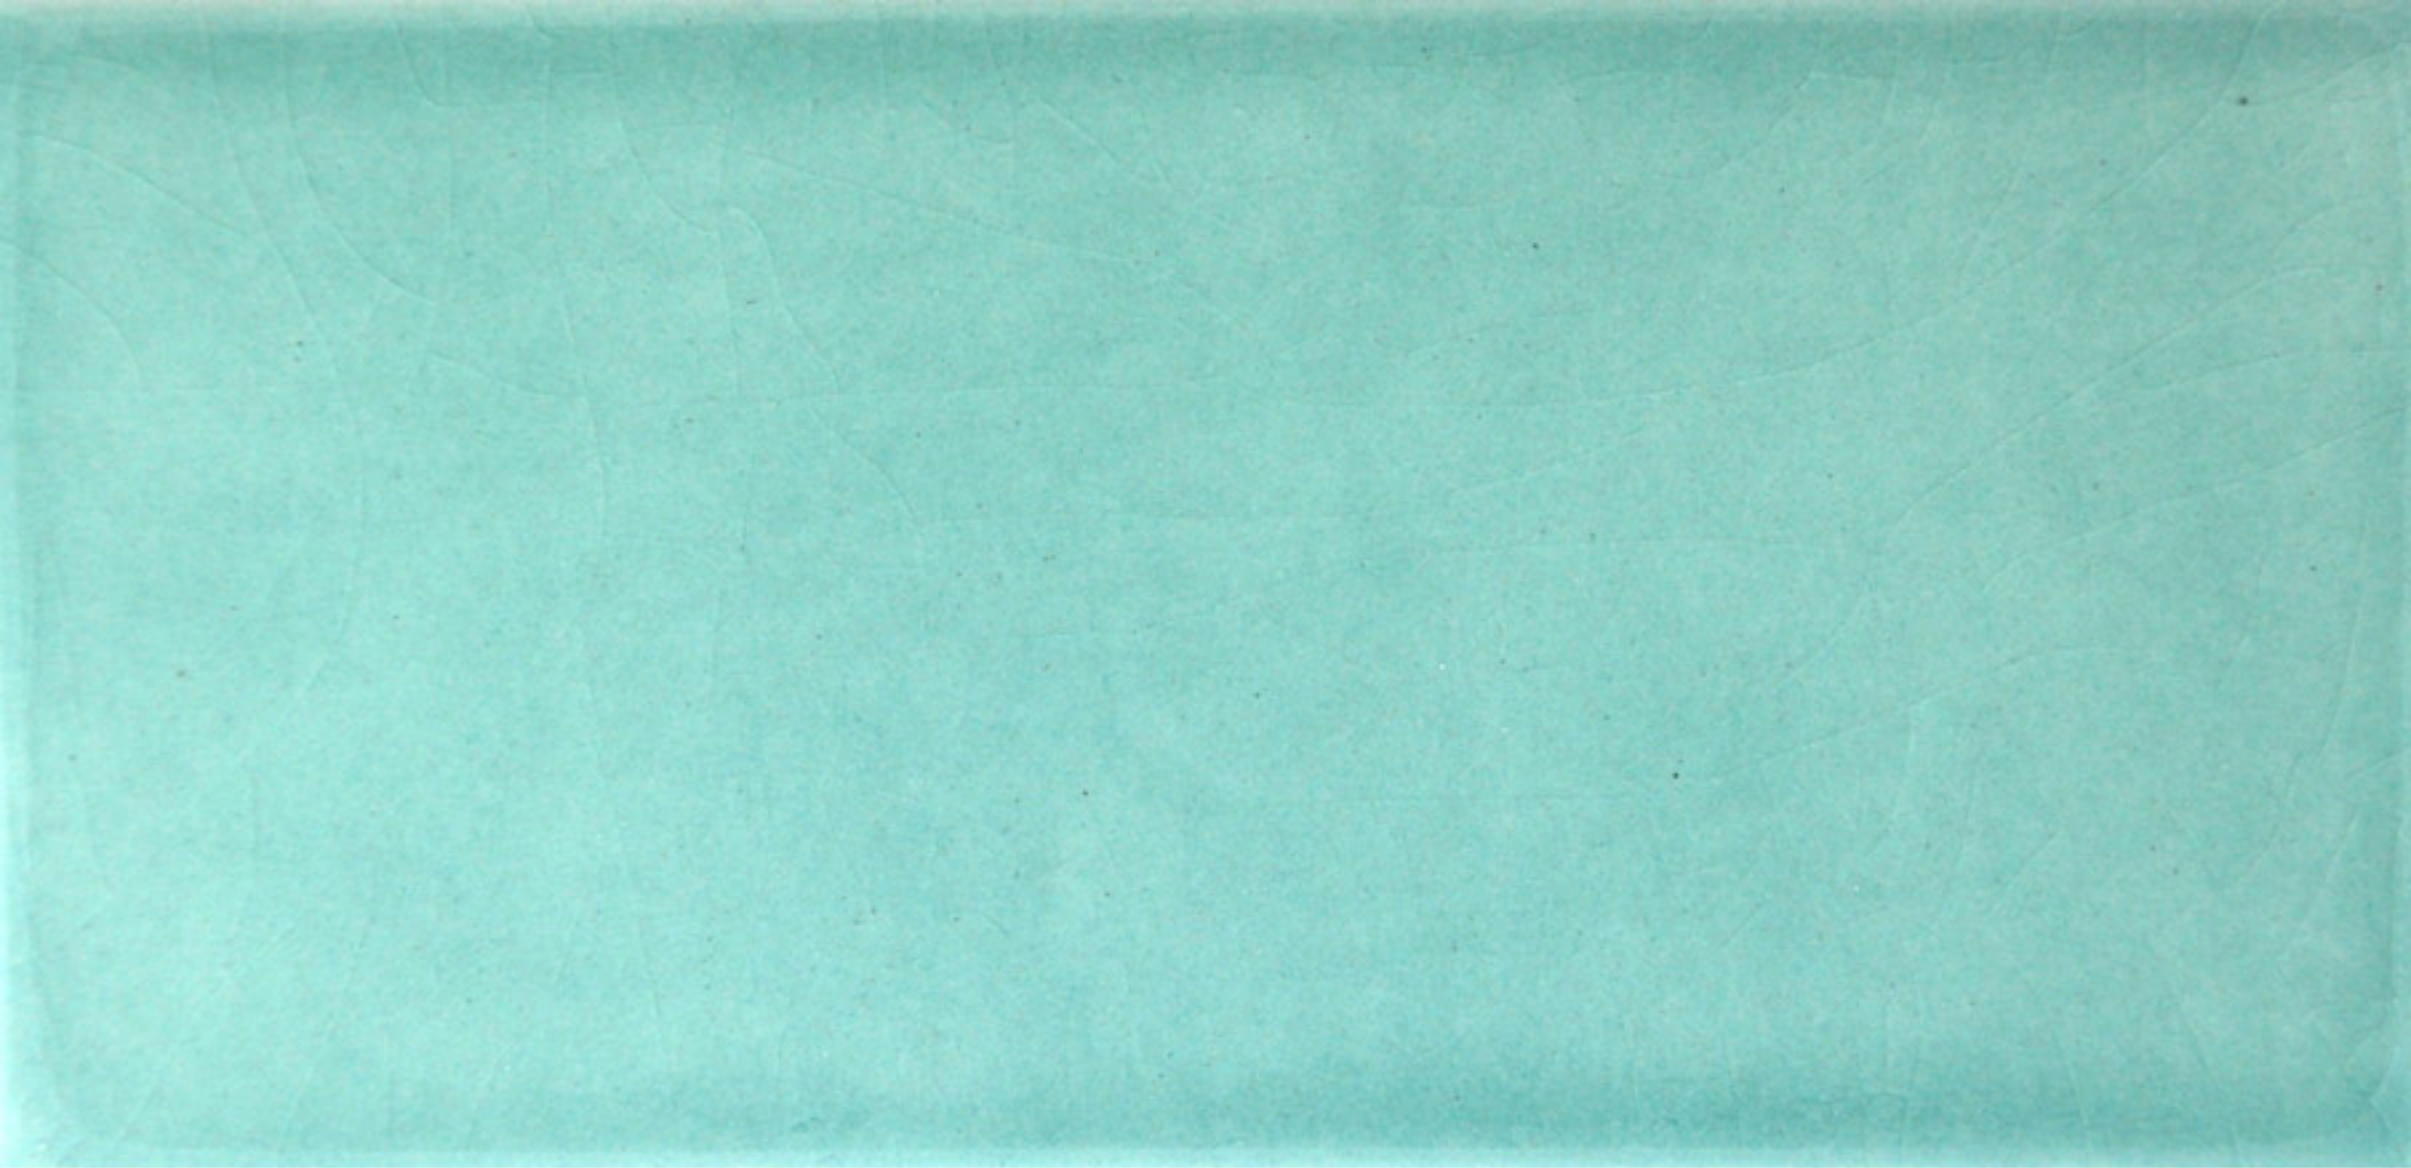

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Catalina RC-4998-B Clear Stain T2

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Celadon RC-334-B (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**HIGH VARIATION:** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Celestial IF-3 (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Cement LG-123 (Watercolor)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Chalk M-488 (Matte)

This glaze has been treated with No stain to enhance its appearance.

**MINIMAL VARIATION:** This glaze has subtle variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Chardonnay RC-3686-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Chinchilla RC-863-C ( Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Cider RC-3686-C (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Cinnamon RC-3773-E (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Citrus RC-756-B (Gloss Crackle)

This glaze has been treated with Black stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Cloud RC-3343-A (Matte)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Coal RC-4038-C (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

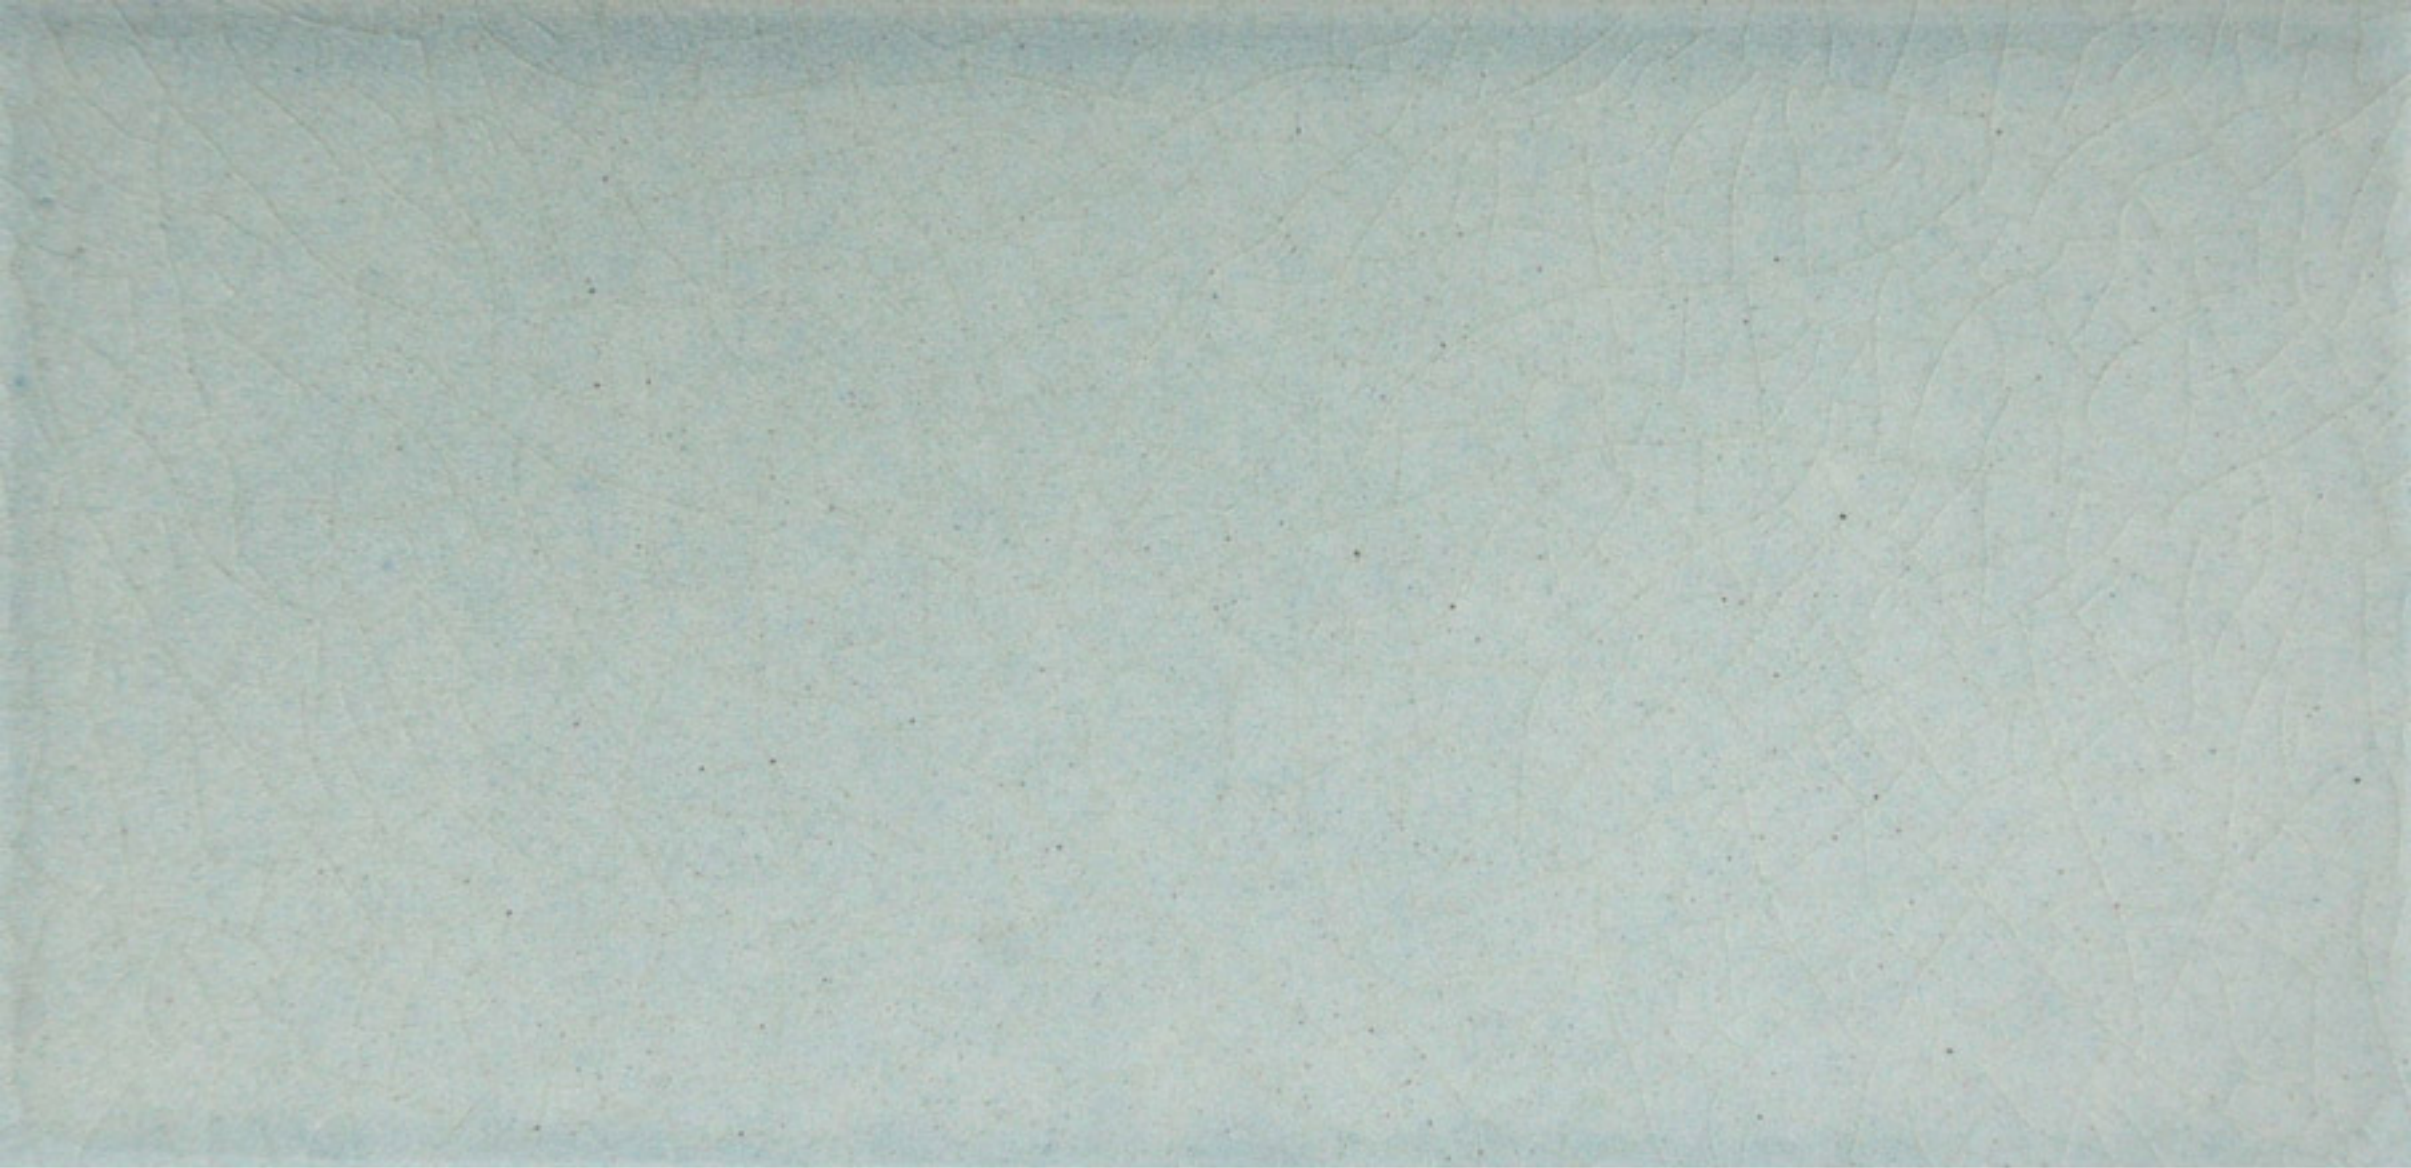

## Cream A-165 (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MINIMAL VARIATION:** This glaze has subtle variation in tone and texture.

Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Creek LG-121 (Watercolor)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Crystal M-493 (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Daffodil RC-2264-E (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

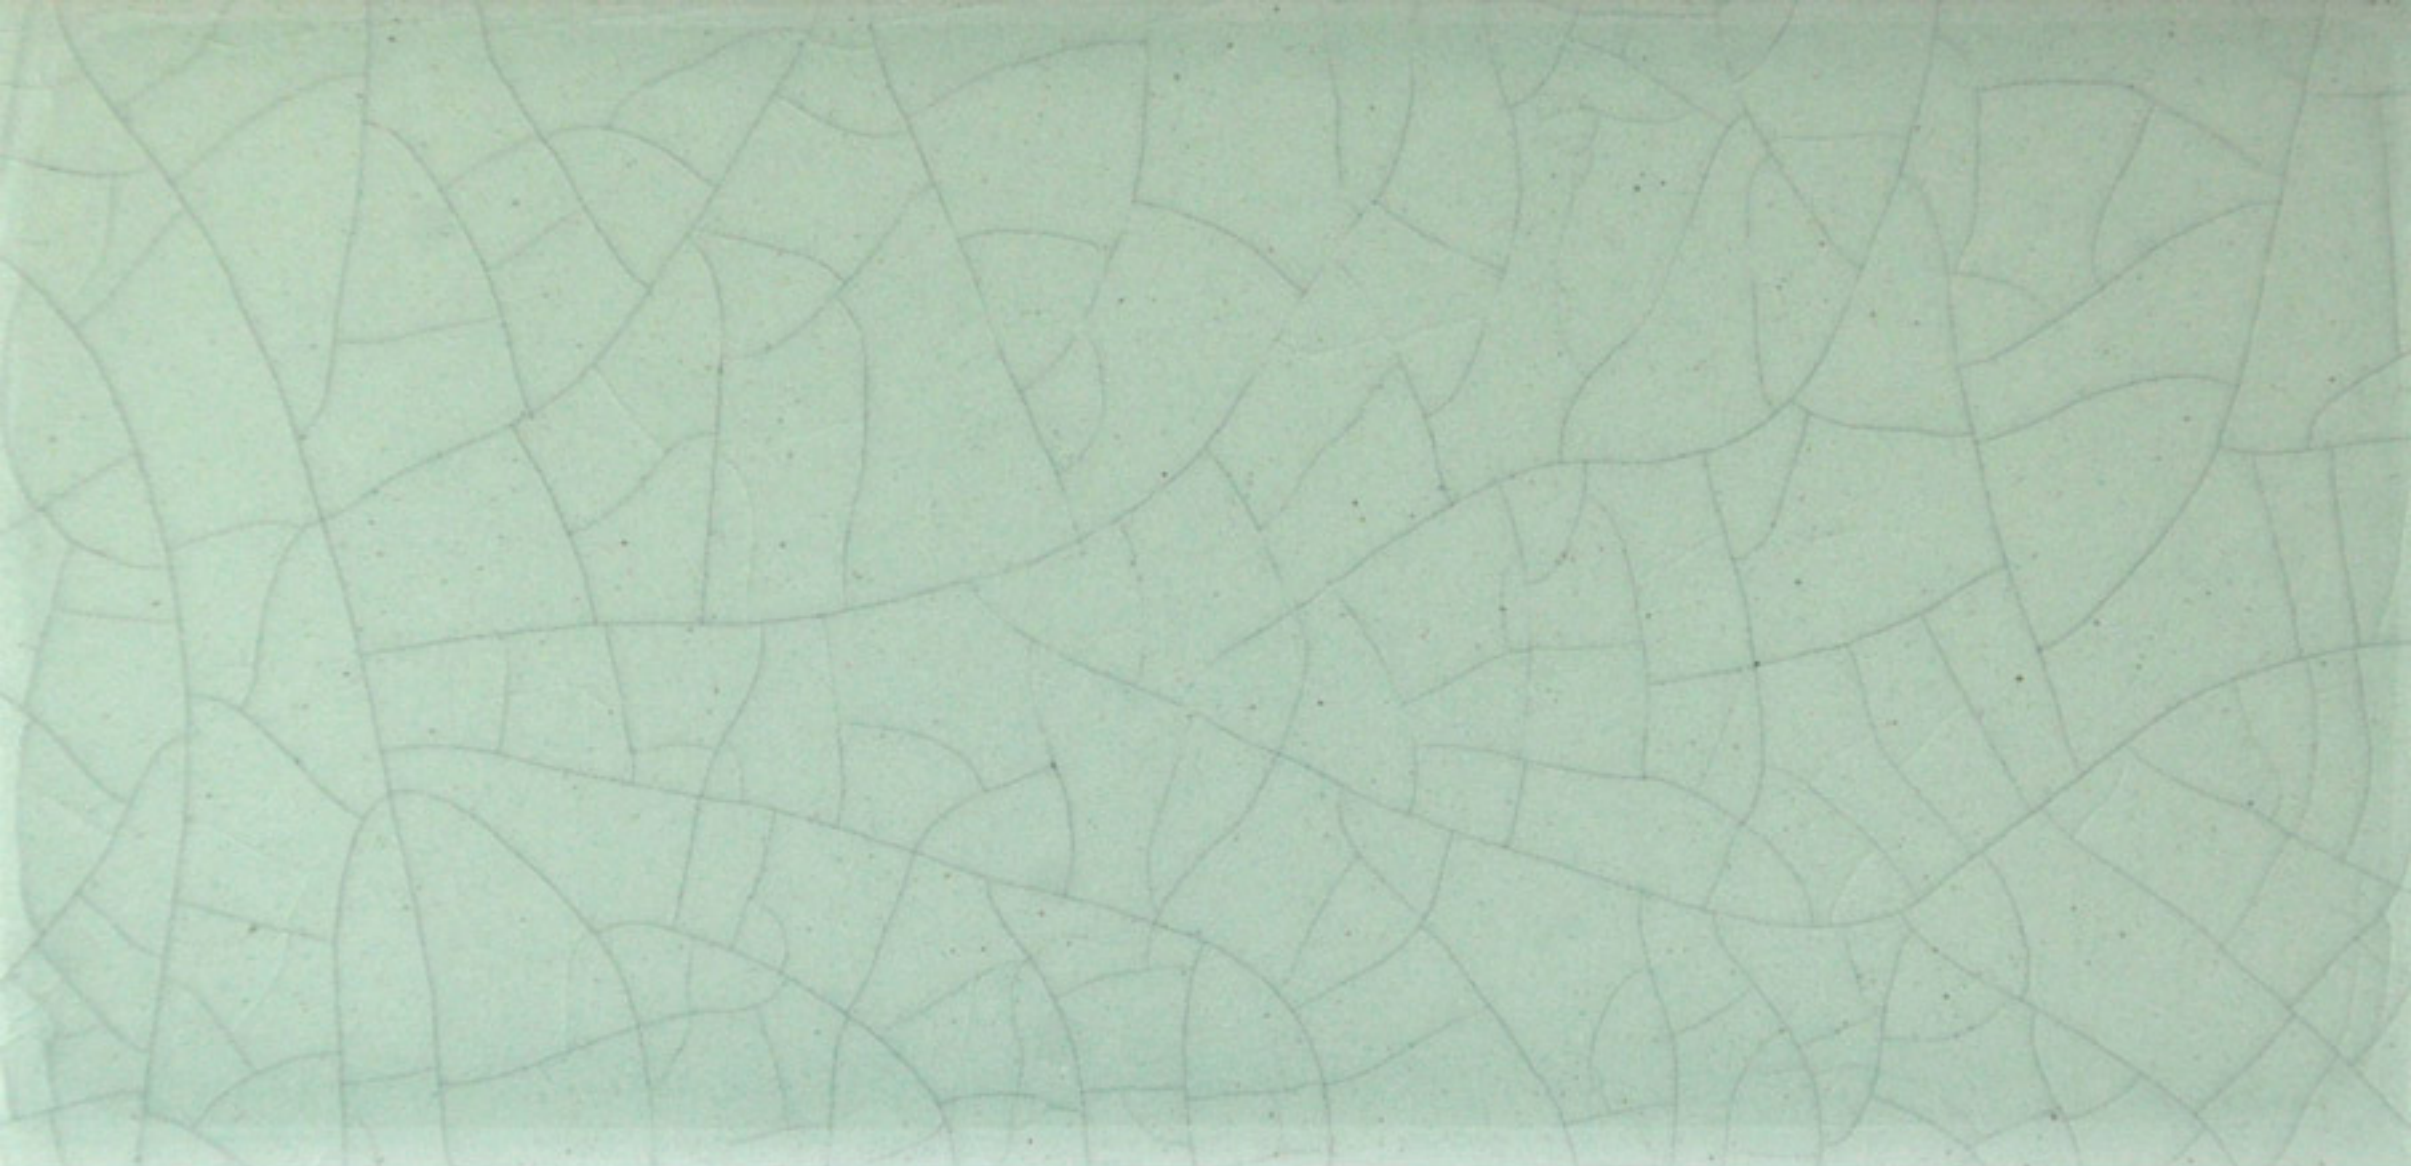

## Denim RC-415-B (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Dew M-492 (Gloss Crackle)

This glaze has been treated with Black stain to enhance its appearance.

**HIGH VARIATION:** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

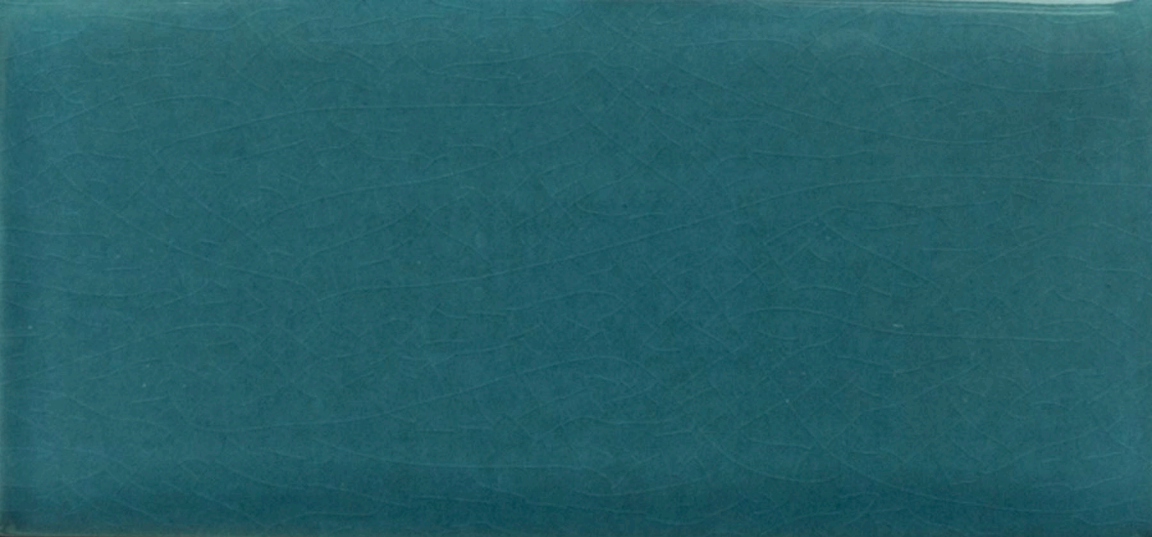

## Dune M-524 (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**HIGH VARIATION:** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Black Magic RC-579-A Clear Stain T2

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Fawn RC-712-A (Matte)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Feather LG-118 (Watercolor)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Fleece RC-269-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Geneva Gold RC-1046-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Glacier RC-1017-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Gloss White M-200 (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MINIMAL VARIATION:** This glaze has subtle variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Greenling RC-3884-B (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Gunmetal C/05 Metallic

**HIGH VARIATION:** This glaze varies greatly from light to dark tones, texture, and also shifts in color. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Halabaloo RC-6054-A Clear Stain T2

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Herb LG-119 (Watercolor)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

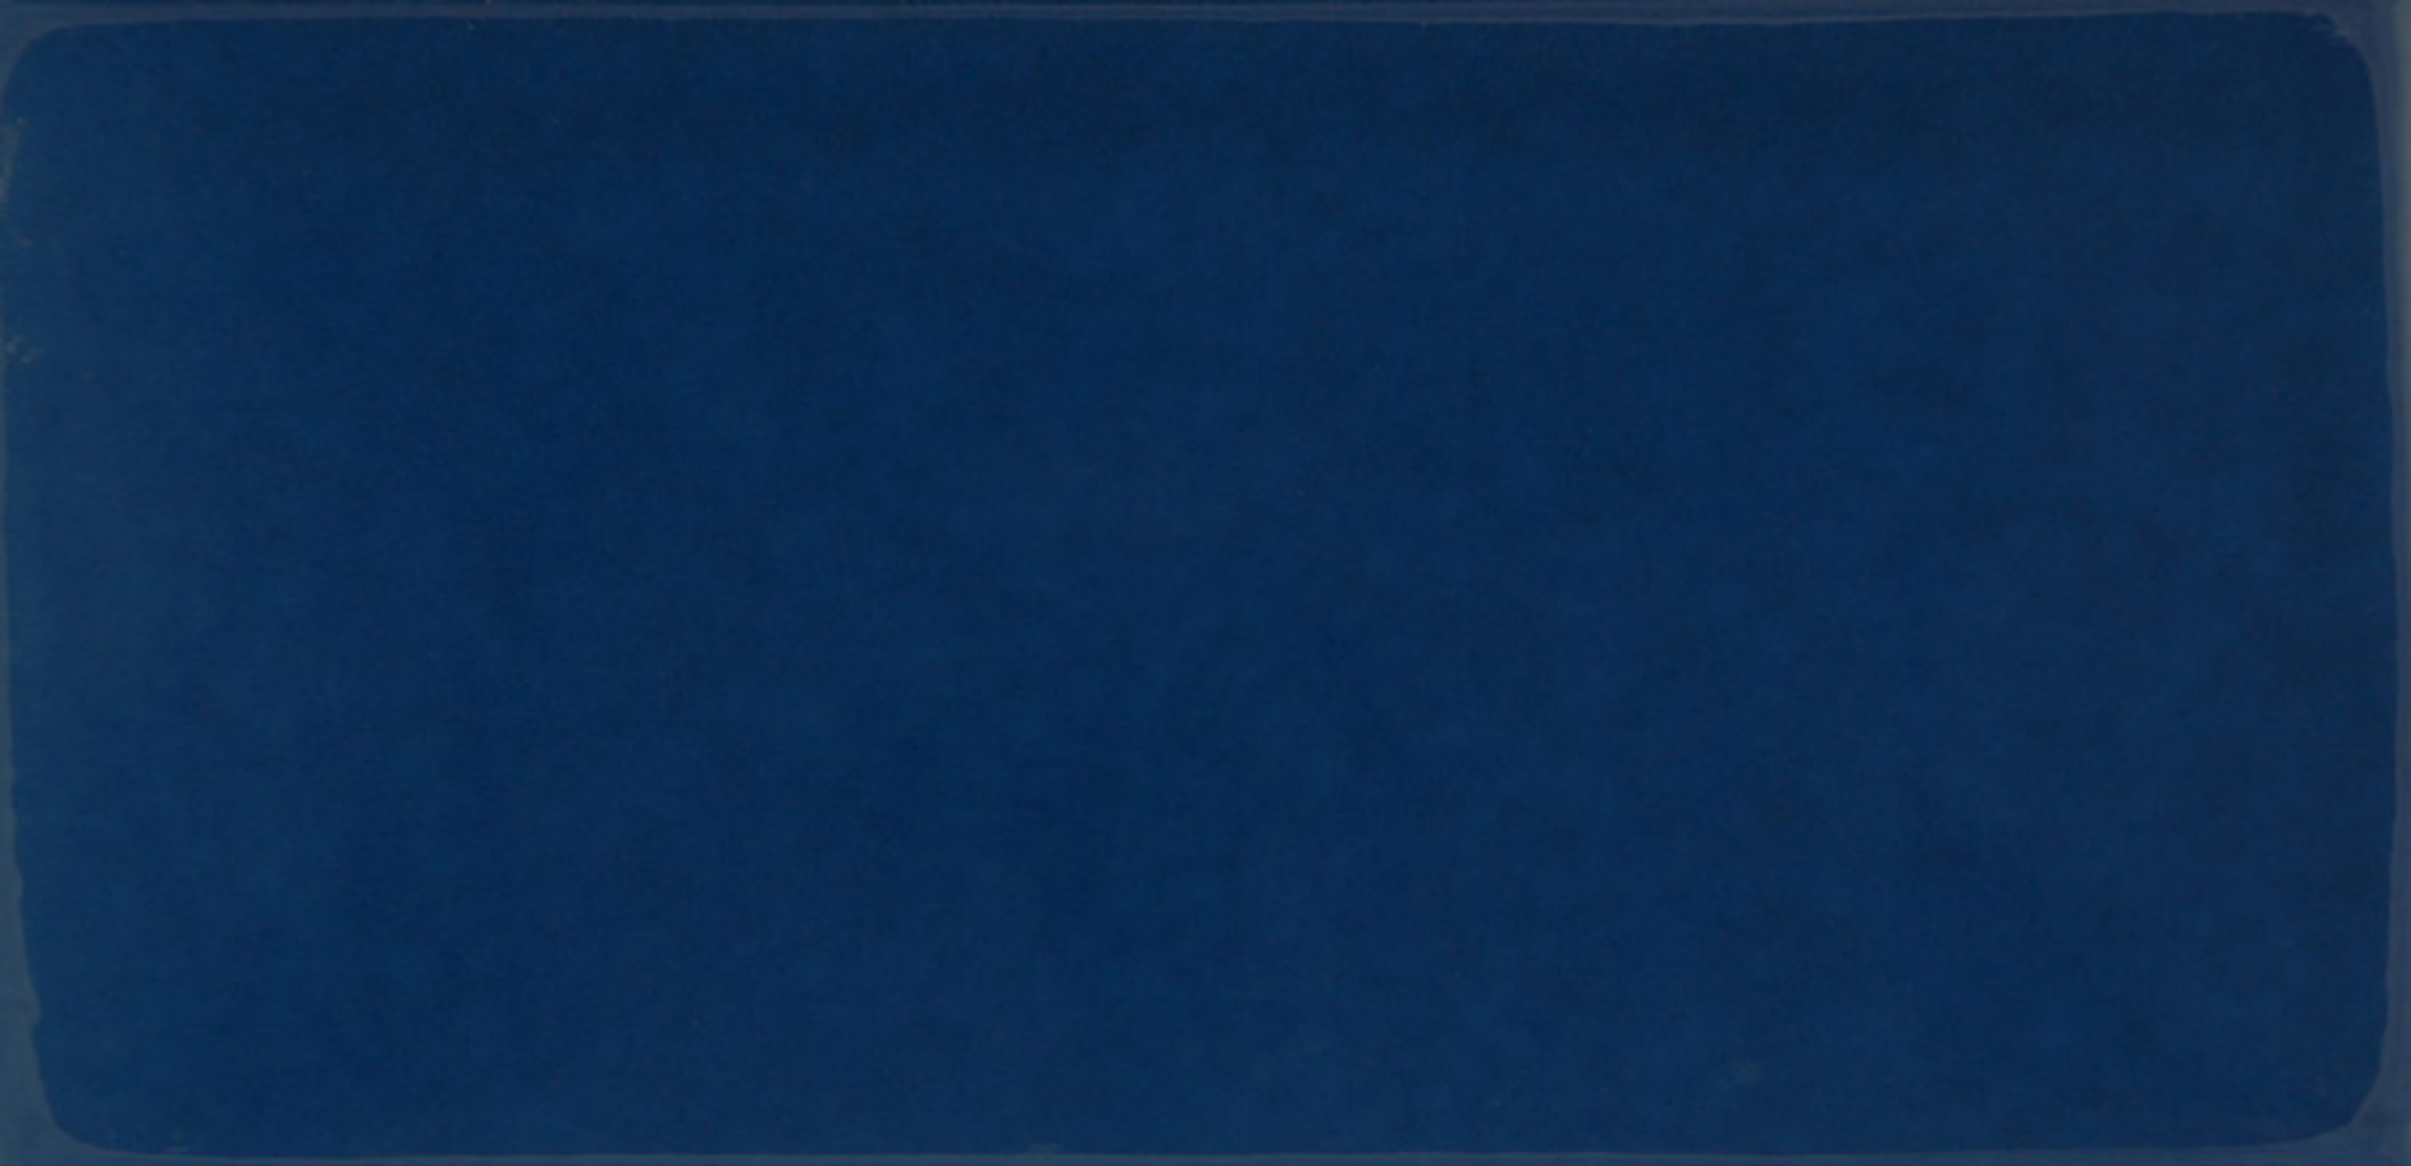

## High Society RC-3871-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

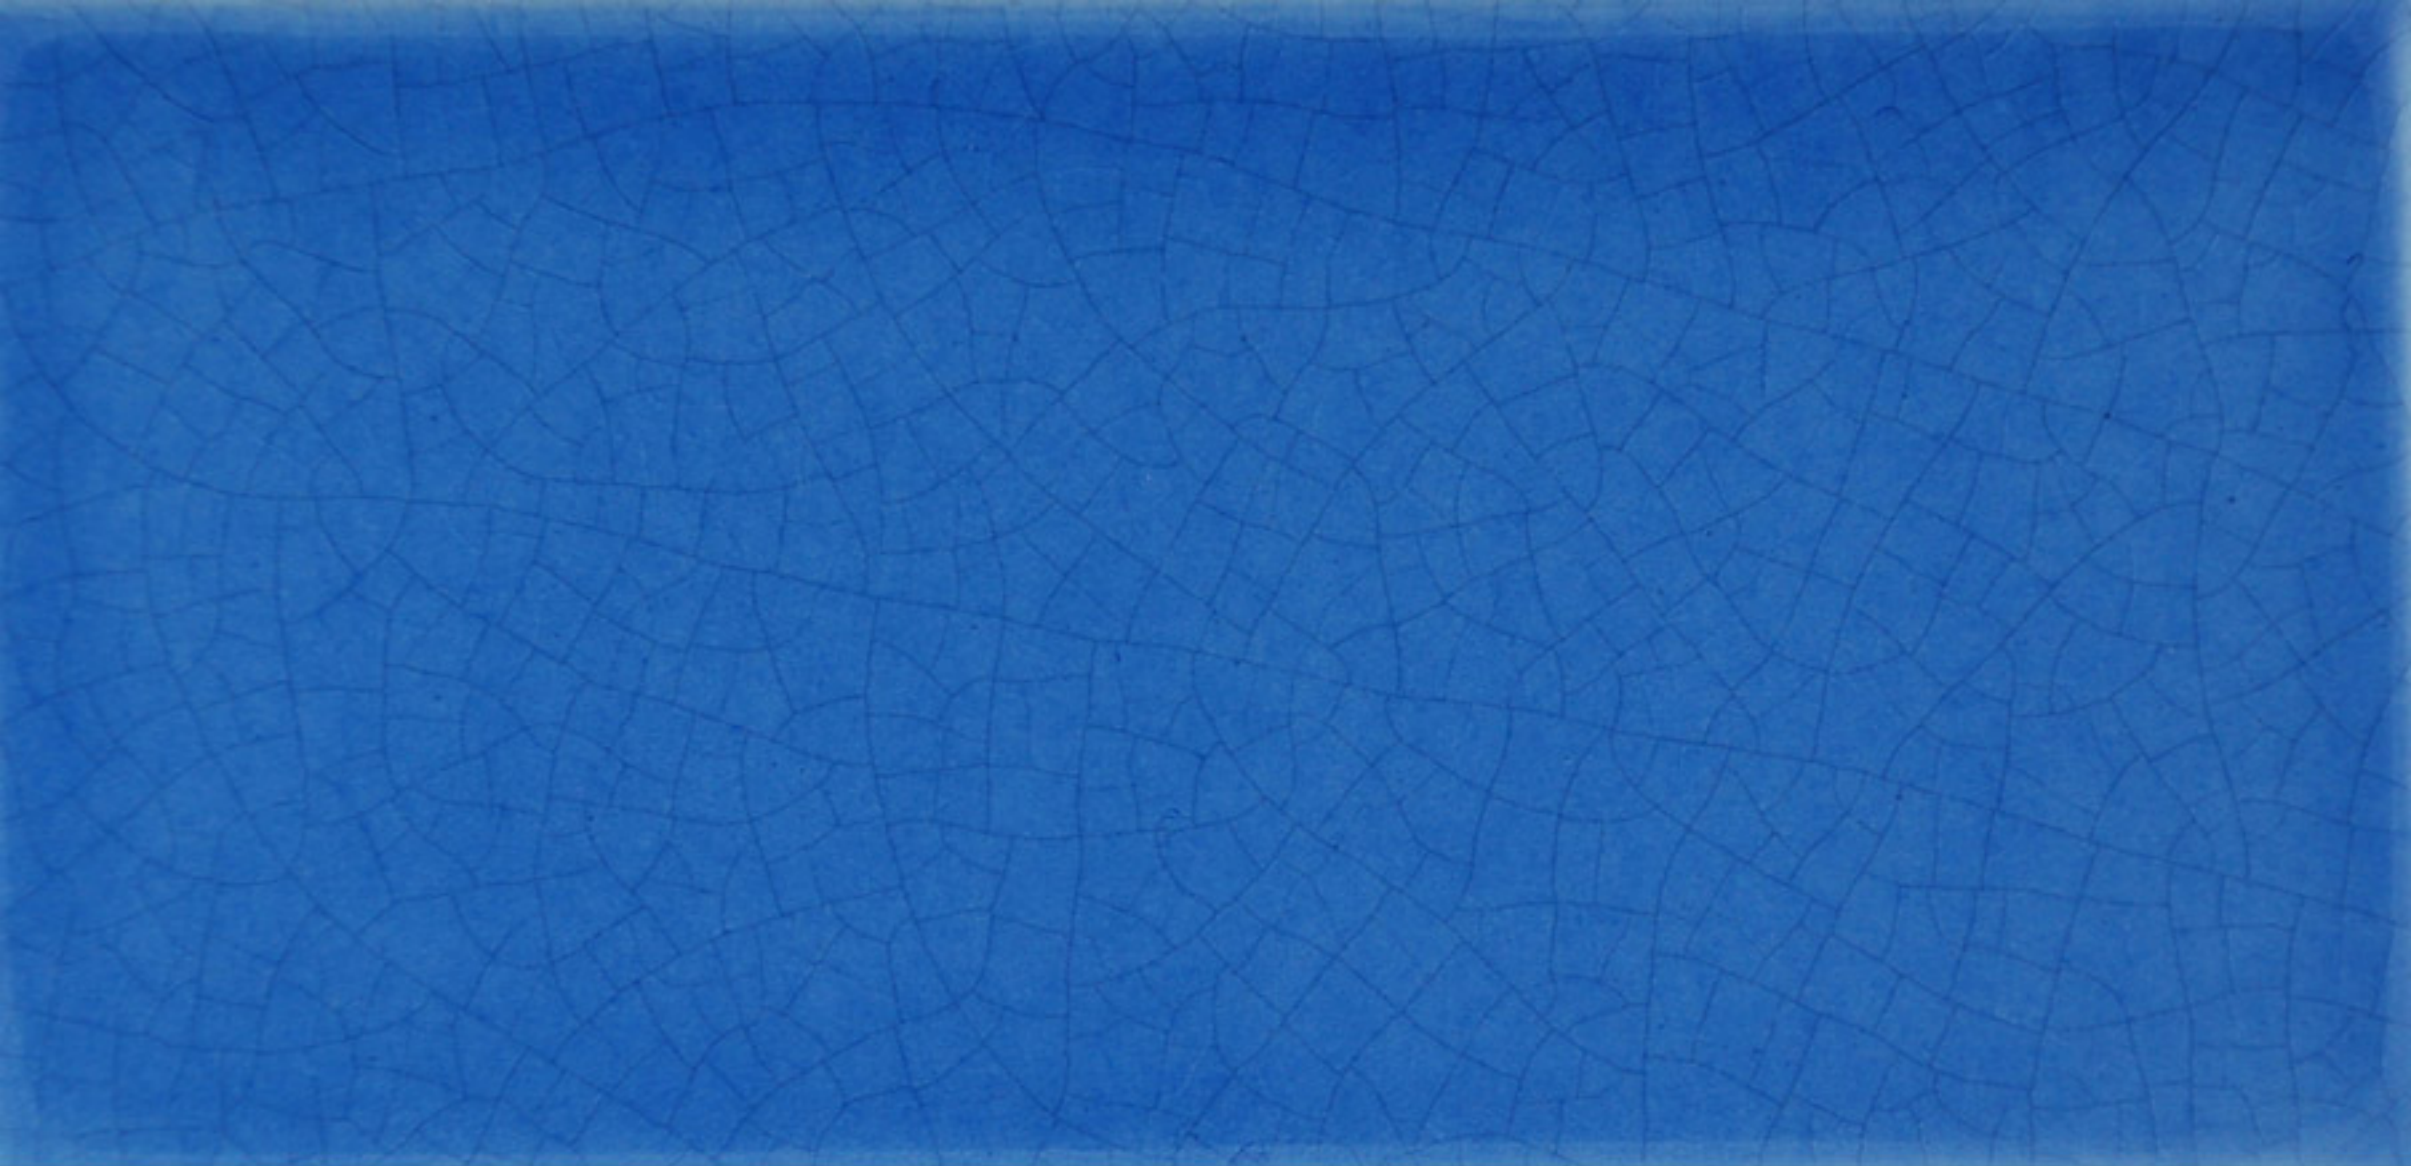

## Indigo M-288-D (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Iris RC-402-A (Gloss Crackle)

This glaze has been treated with Black stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Iron City RC-3983-B (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Island RC-2567-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

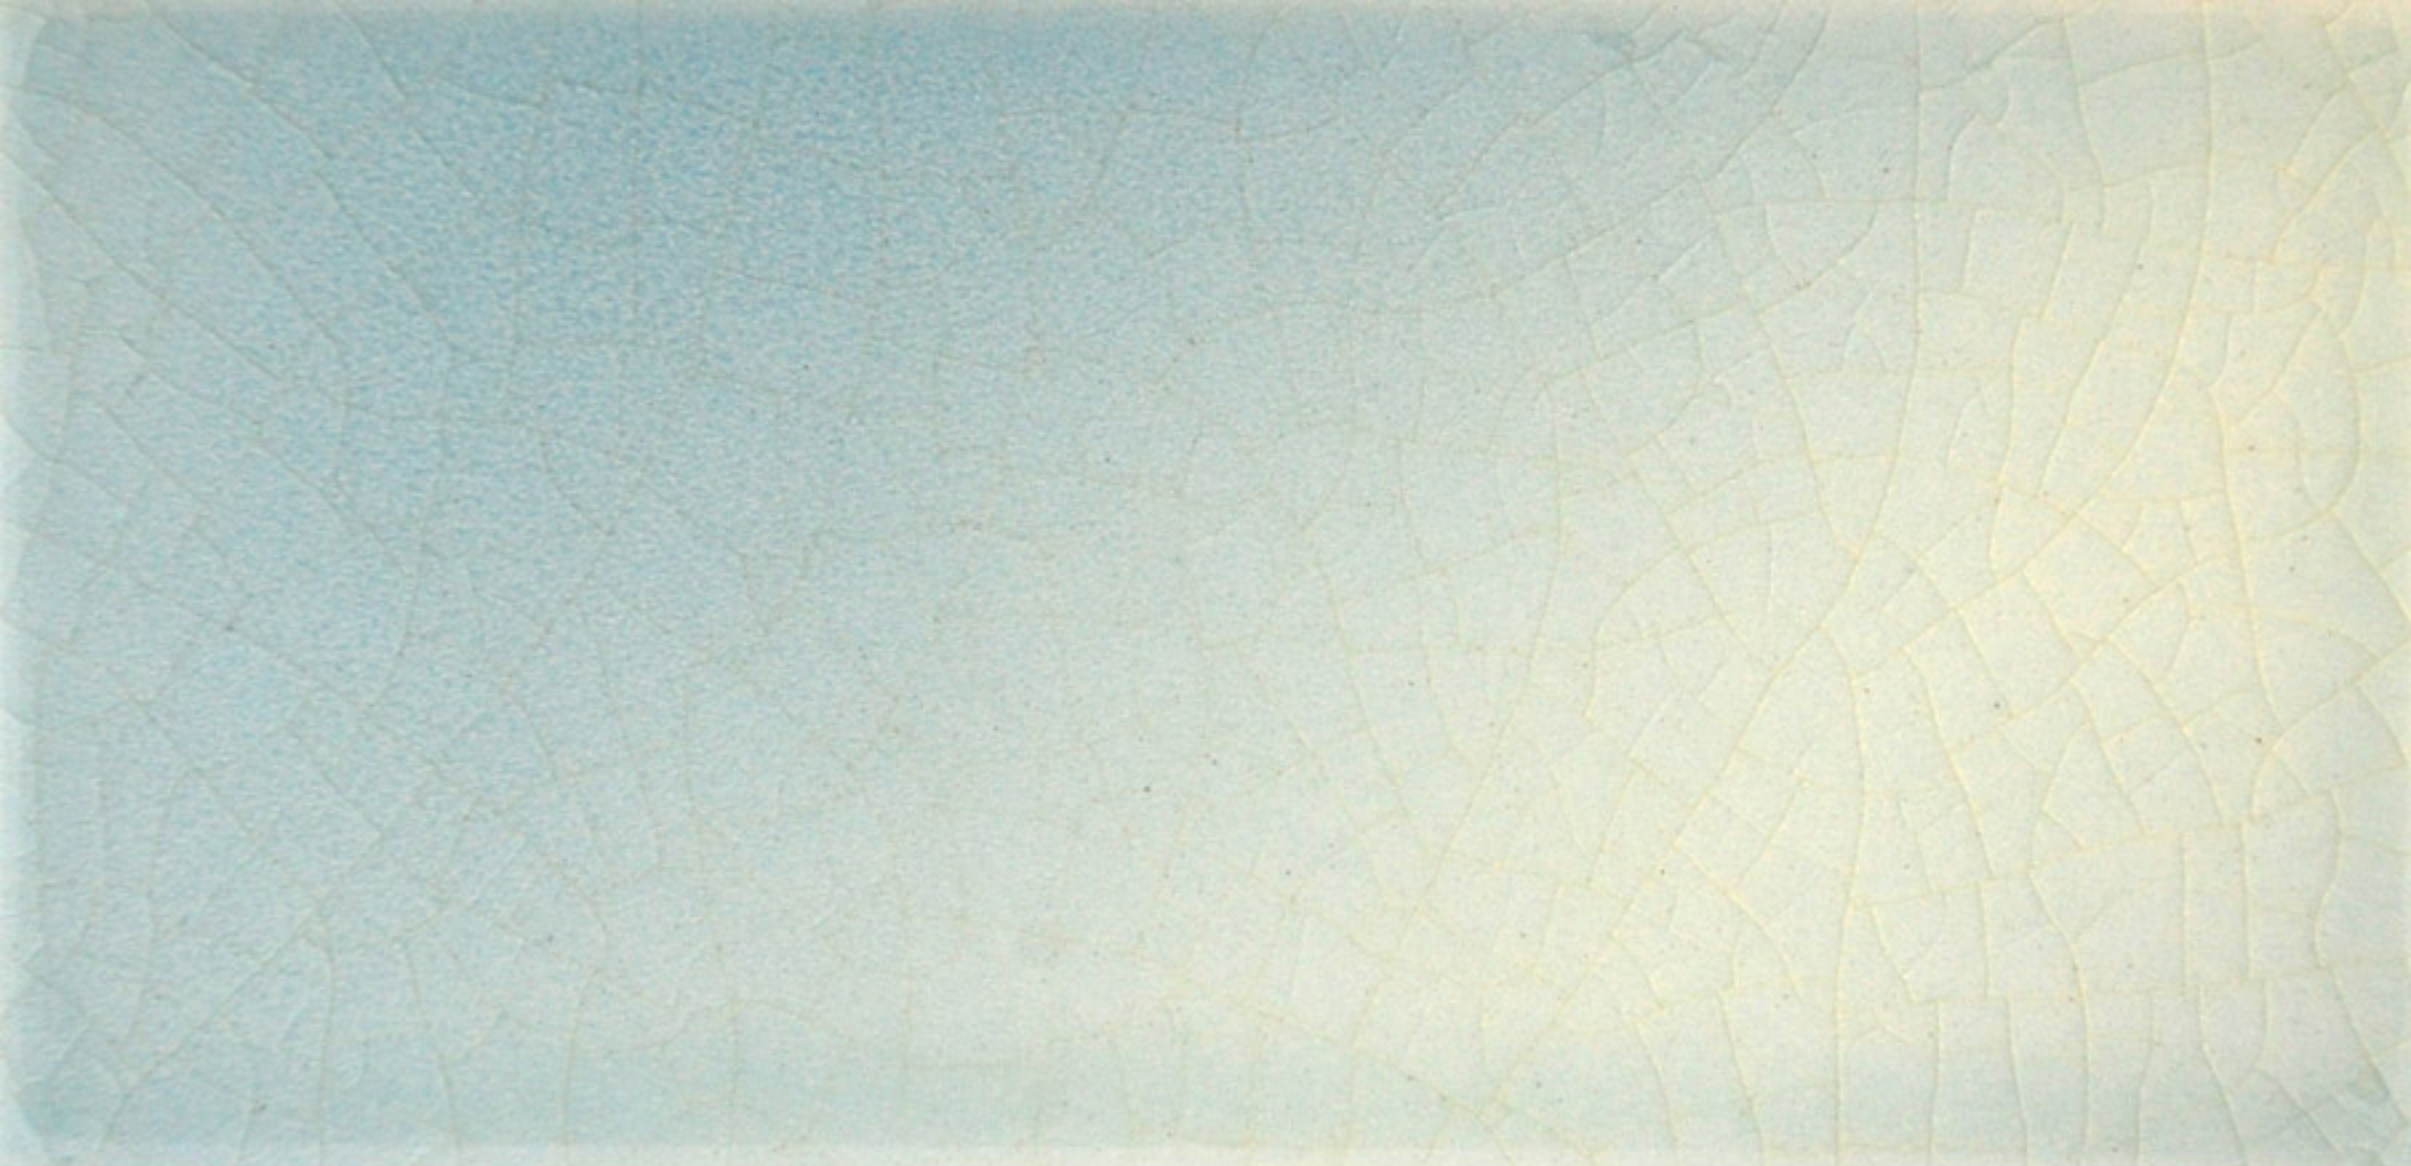

## Key lime RC-2588-A (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Lake LG-112 (Watercolor)

This glaze has been treated with Sepia stain to enhance its appearance.

**INTENTIONAL VARIATION:** This glaze is created by multiple layers of different glazes with extreme reactions in firing resulting in significant changes in color, tone, and texture.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Majorca RC-2459-A (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Matte Black RC-2876-E (Matte)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Melon RC-740-F (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Mint Car RC-3873-A (Solid)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

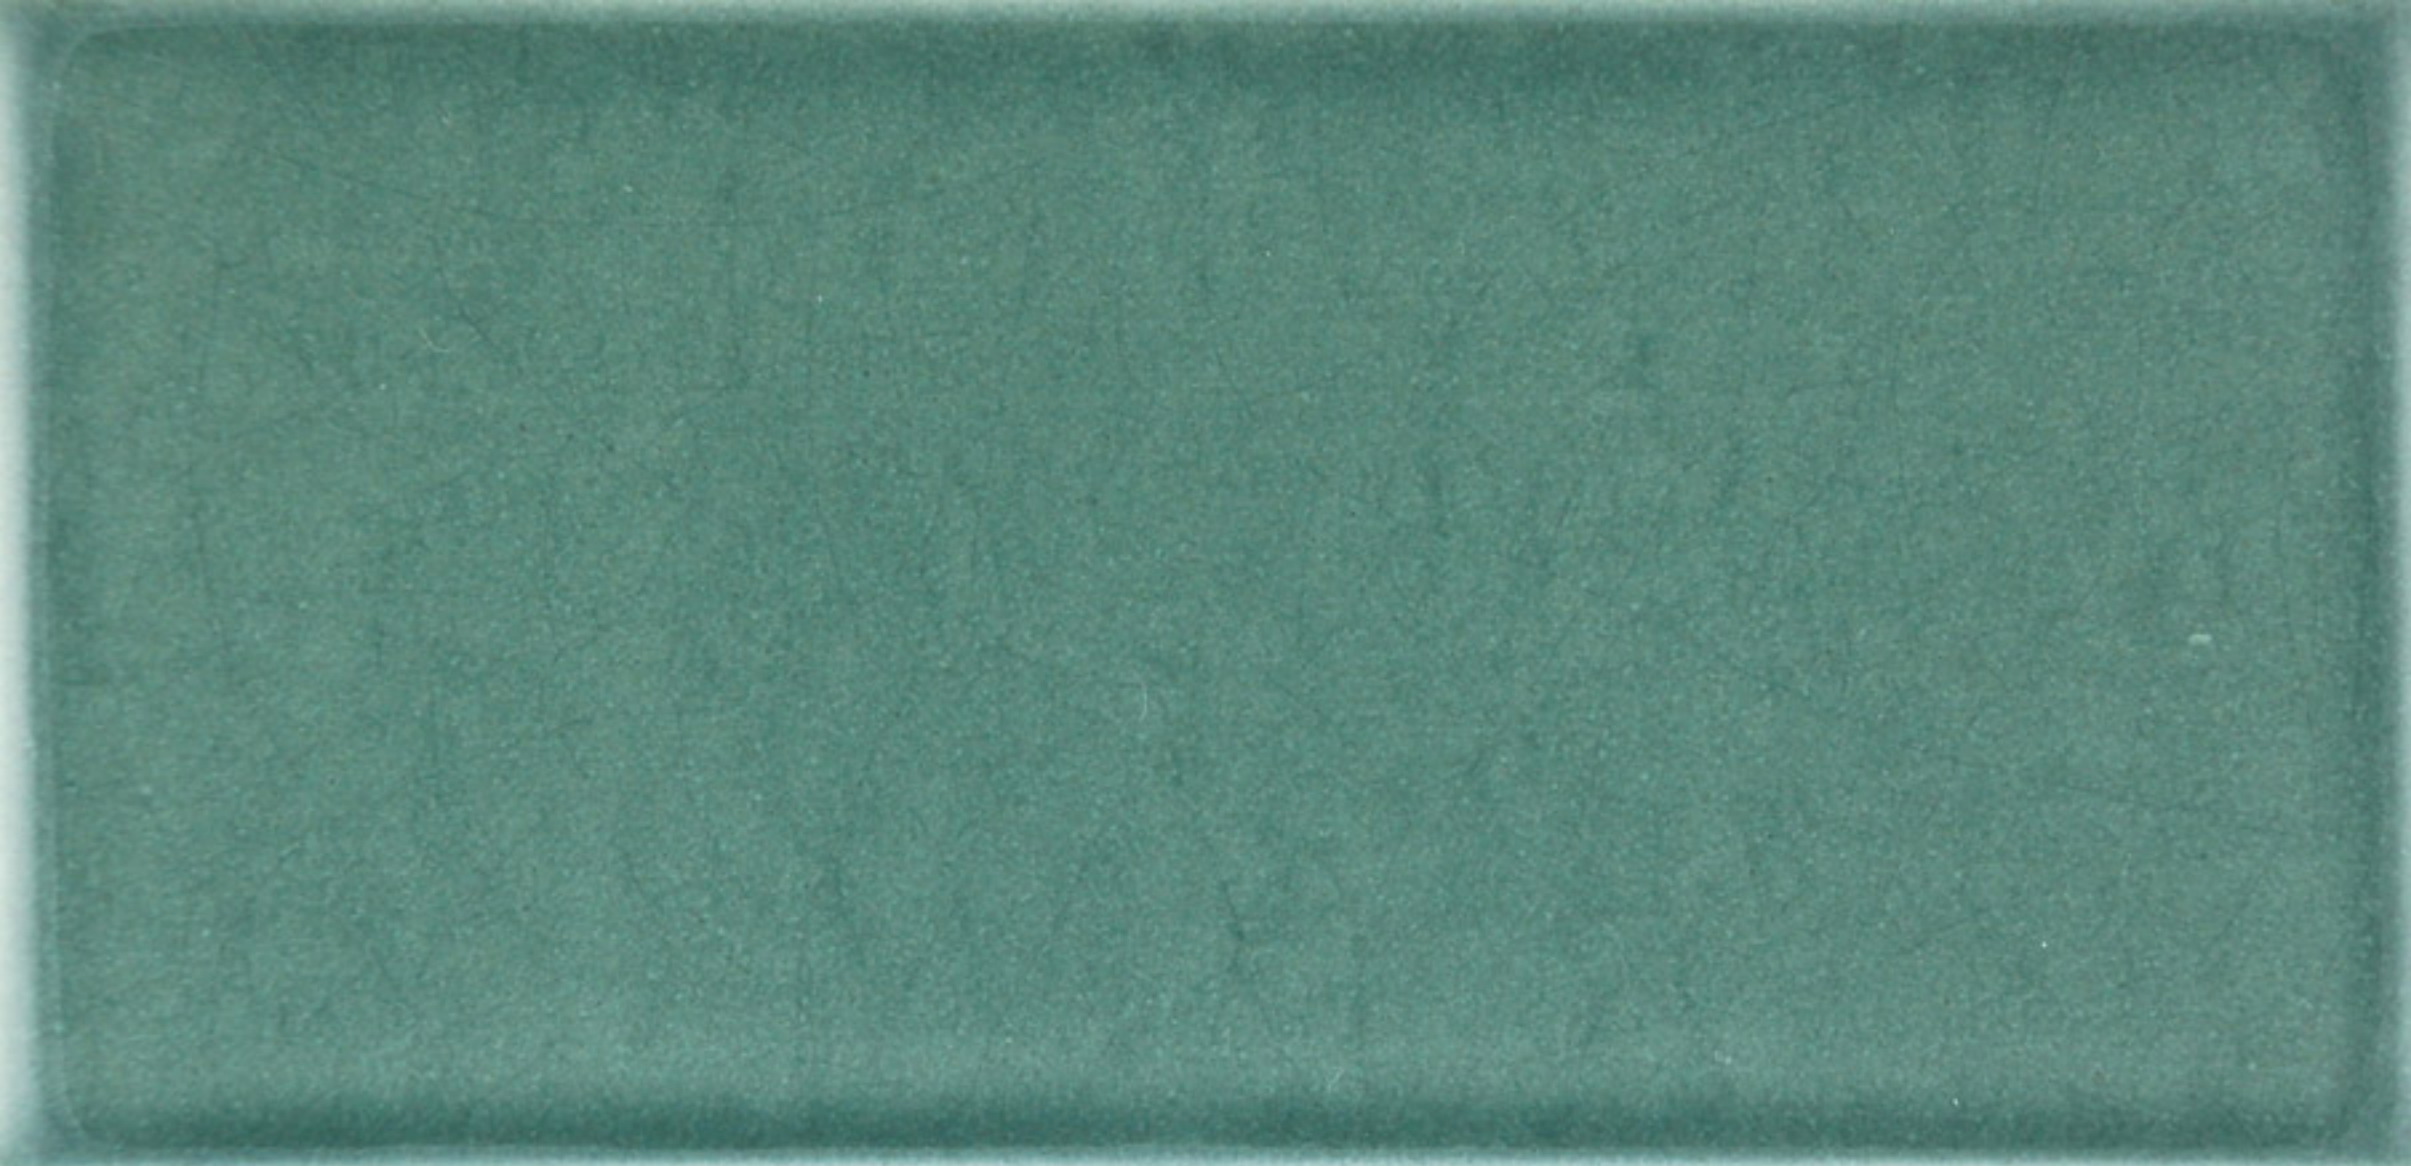

## Misty Morn RC-3871-B (Gloss Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Moss RC-415-E (Gloss Crackle)

This glaze has been treated with Black stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## New Fern RC-5126-G Clear Stain T2

**HIGH VARIATION:** This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Night Channel RC-6057 Clear Stain T2

HIGH VARIATION: This Glaze varies greatly from light to dark tones, textures, and also shifts in color. Variation is inherent to the handmade Process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

## Nude RC-792-A (Matte Crackle)

This glaze has been treated with Sepia stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product. Screen images are intended as a guide only and should not be used to order. It is important to have a tile sample when making final glaze selections. Also, no single tile can properly display the entire range of a glaze.

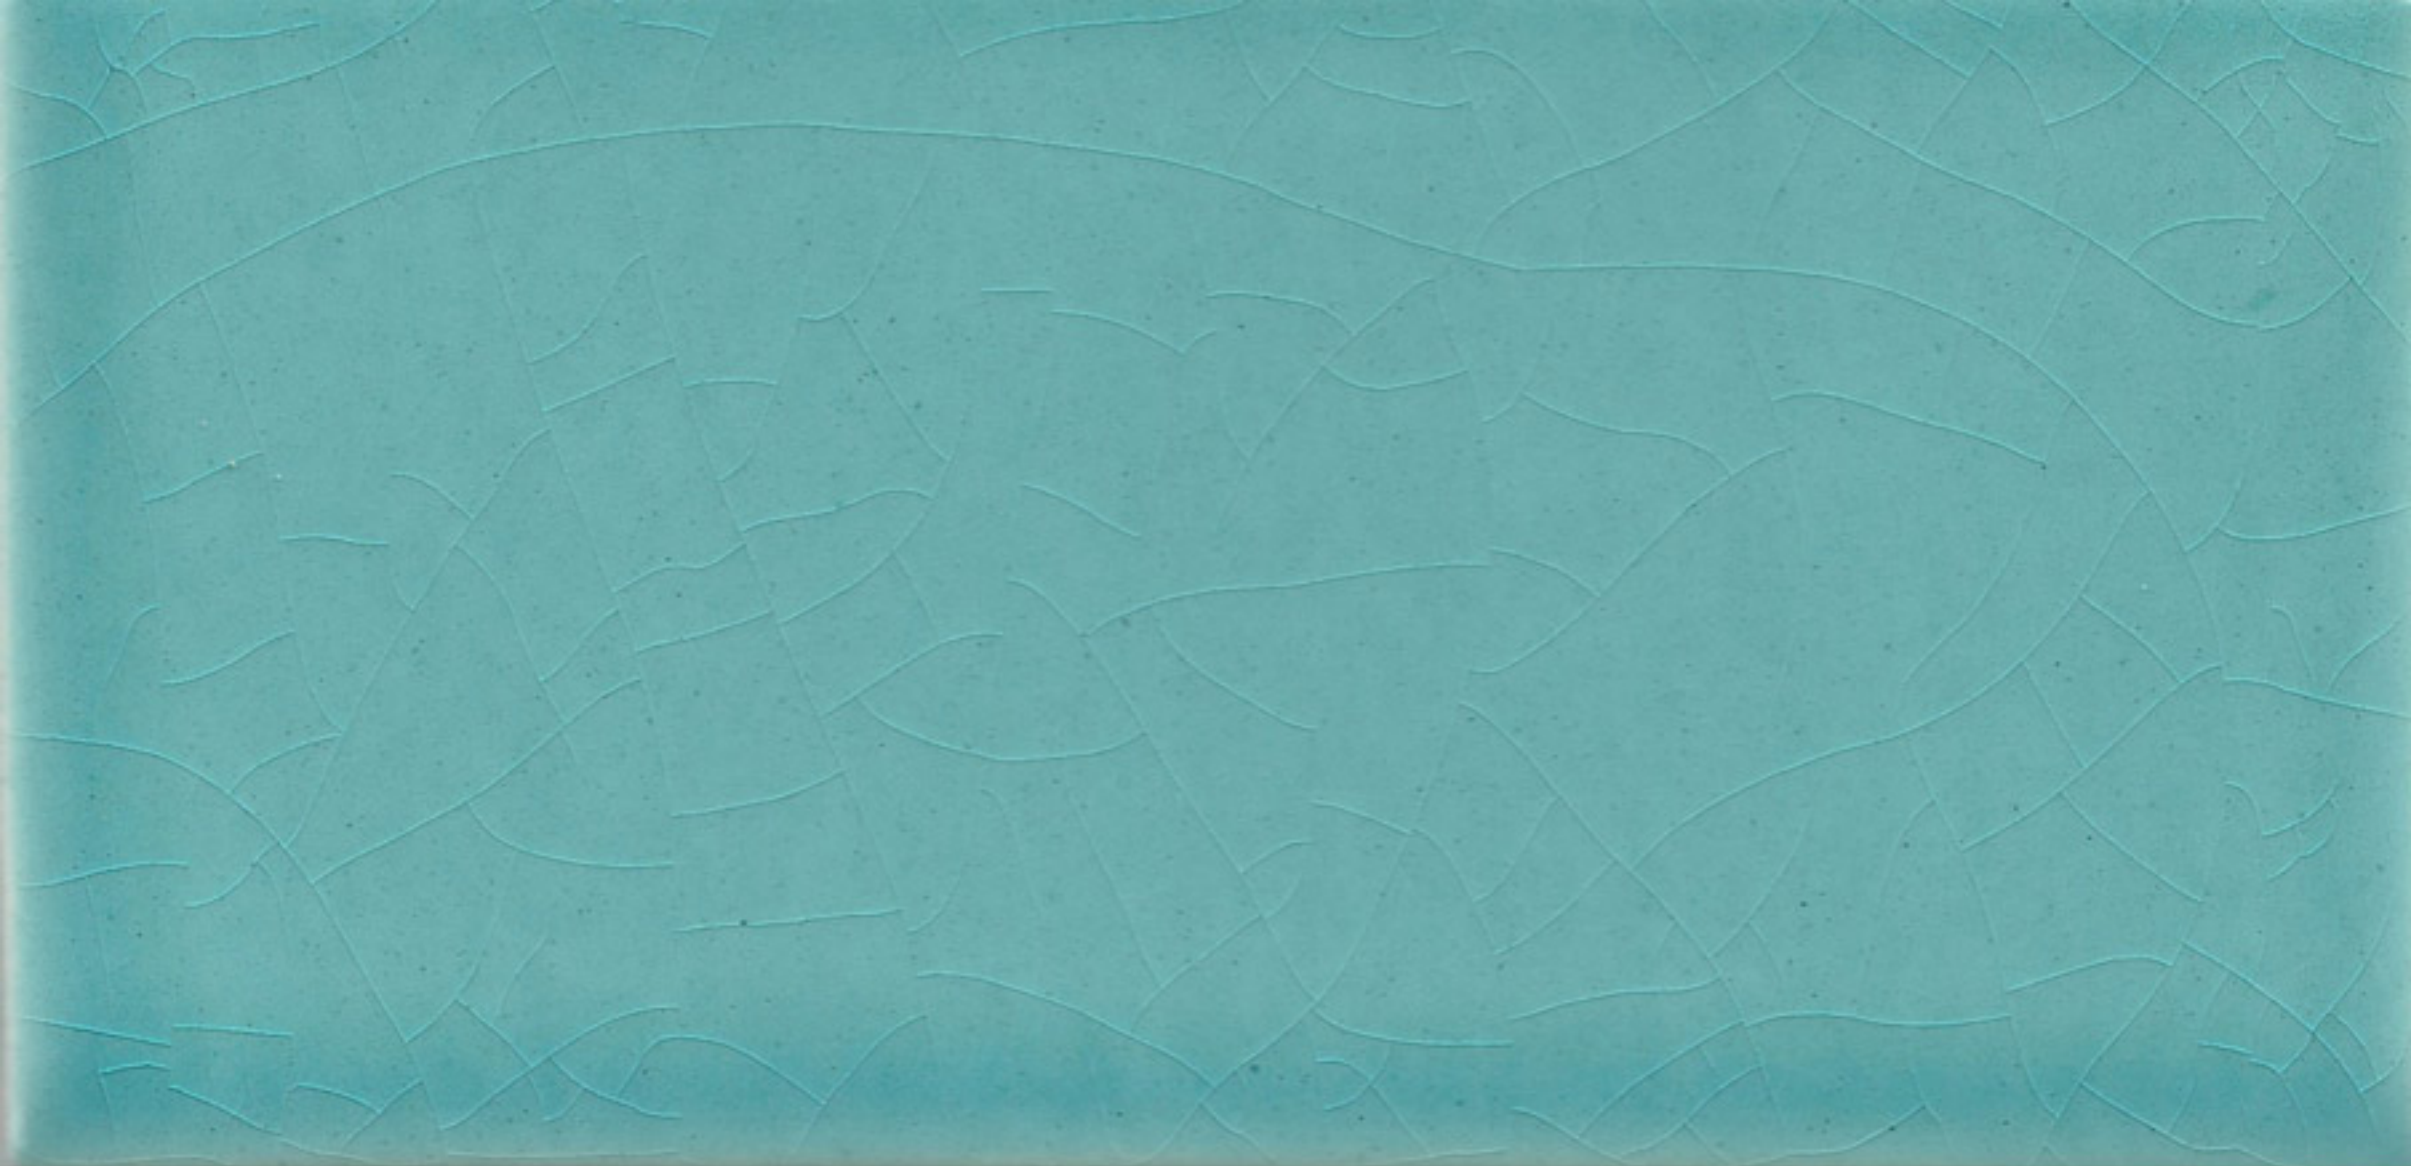

## Nuthatch RC-3894-A (Matte Crackle)

This glaze has been treated with No stain to enhance its appearance.

**MODERATE VARIATION:** This glaze has moderate variation in tone and texture. Variation is inherent to the handmade process and is intentional.

Due to the variations of desktop display monitors, the colors you see on your screen will not be a totally accurate reproduction of the actual product.
