Vibes

# SARTORIA<sup>est.</sup> 20 18

2018: Sartoria is created, combining the knowledge with the understanding of modern ceramic history. A tailored project for all those who love interior design, small sizes, colour and decoration. From these four elements a new chapter within Terratinta Group is born, aiming to create a new style that can be exported all over the world.

Just like the detailed and creative creations of a tailor, Sartoria designs and fulfils distinguished ideas, giving new life to the craftsmanship of the small ceramic size. From white-body walls to gres porcelain tiles, different options designed for small and wide spaces: a unique, contrasting design, a choice between styles, a choice of style.

Dall'esperienza di una storia ceramica recente senza precedenti, nel 2018 nasce Sartoria. Un progetto su misura per chi ama l'interior design, il piccolo formato, il colore e la decorazione. Da questi quattro elementi nasce un nuovo capitolo all'interno di Terratinta Group, con l'obiettivo di creare un nuovo stile esportabile in tutto il mondo. Così come le creazioni di un sarto, meticolose e creative, Sartoria disegna e realizza grandi idee, dando nuova vita all'artigianalità del piccolo formato ceramico. Dal rivestimento in pasta bianca al porcellanato, diverse combinazioni pensate per piccoli e grandi spazi: un design unico, contrastante, una scelta di stili e di stile.

Vibes

### **THREE DIMENSIONAL SURFACES.**

Lined up, stacked and assembled, bricks are on all fronts. This simple constructive element frees itself from its primary use and steps out of the shadows. With their playful shapes, bricks are transformed into display elements thanks to geometric patterns that allow for ultra-sophisticated yet informal effects. This year, bricks become the cornerstone of interiors and exteriors, residential and public. Assembled like a huge game of construction games, bricks are arranged in a graphic way to compose contemporary frescoes. Sometimes combined with richer materials such as brass, marble or stone, they form a complex melody of volumes and textures to explore spatiality, modularity and repetition playfully, releasing positive vibes.

### **SUPERFICI TRIDIMENSIONALI.**

Allineati, impilati, assemblati, i brick sono su tutti i fronti. Questo semplice elemento costruttivo si libera dal suo uso primario ed esce dall'ombra. Con le loro forme giocose, i brick si trasformano in elementi espositivi grazie a motivi geometrici che permettono di ottenere effetti ultra sofisticati ma al tempo stesso informali.

Quest'anno il brick diventa la pietra angolare di interni ed esterni, residenziali e pubblici. Assemblati come un enorme gioco di costruzioni, i brick sono disposti in modo grafico per comporre affreschi contemporanei. A volte combinati a materiali più ricchi come l'ottone, il marmo o la pietra, formano una complessa melodia di volumi e trame per esplorare spazialità, modularità e ripetizione in modo giocoso, sprigionando vibrazioni positive.
