The color of porcelain veneers printed in this catalog may differ from actual veneers. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain veneers. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested porcelain veneer.

This porcelain veneer product is manufactured with a V2 shade variation. Remember that the amount of color as well as the texture of each piece may vary from piece to piece. Inspect the product immediately upon delivery and select pieces from many boxes during installation to minimize and blend any possible color difference.

RECOMMENDED USE
 Veneer World is recommended for indoor and outdoor walls in commercial and residential application. Landmark recommends an offset no greater than 30%, if a staggered pattern is required for tiles of 20" inches or longer.

CARE AND MAINTENANCE
 Do not apply any wax or sealer to the product after installation. Regular cleaning is the best way to keep porcelain veneers looking good. Use clean, hot water (add household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. Please visit outdoor.landmarkceramics.com for further information regarding the care and maintenance of Landmark products.

WARRANTY
 Landmark guarantees that its products will meet or exceed the performance specifications set out in ANSI A137.1-2012 and in the performance specifications section of the Landmark general catalog. For more information, please visit our website at outdoor.landmarkceramics.com.
