

R I C H A R D S & S T E R L I N G

REMEMBER -

STONE must be sealed and maintained
STONE should be sealed PRIOR to grouting
STONE cannot be sorted or returned partially
STONE has a natural variation that is beautiful
STONE is not always consistently available

all STONE is UNFILLED, unless otherwise noted (+)

USE CODES

durability ① Residential
② Residential/Light Commercial
③ Commercial

variation ● Minimal Shade/Color Variation
■ Moderate Shade/Color Variation
▲ Considerable Shade/Color Variation
▣ Aged, Tumbled, Rustic or Distressed tiles
may have irregular edges and/or corners

+ Filled (typically TRAVERTINE)

we recommend to ALWAYS set from multiple (4-5)
cartons to adequately blend the installation

Sealing is an important step in the installation and maintenance of any NATURAL STONE!

We recommend the use of a premium quality PENETRATING SEALER.

We also recommend sealing the NATURAL STONE **PRIOR** to grouting to prevent staining and maintain color consistency of the NATURAL STONE.

Packing information is intended to be accurate and helpful, but factories occasionally change packing without notice. All information contained is believed to be reliable, but not to be taken as promise or assurance. All reports of inaccuracies, errors or misprints are appreciated.

Blend Color Key

Natural Stone Blends are subject to the natural variation of not one stone, but the numerous stones that make up the blend. As a result, the larger the blend module, (like KRAGOS and ROMBOID), the more impossible it becomes to adequately represent the blend when sampling. Use the Key below to clarify the stones that make up the various blends.
